## The need

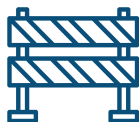

Abuse can affect anyone, but women and girls are disproportionately affected.

In Canada, a woman or girl is killed every other day, most often by an intimate partner or family member.

Social isolation and economic hardship from COVID-19 has increased gender-based violence. Over the pandemic, **the demand for our services rose by 40%.**

There are many barriers to leaving an abusive relationship. Beyond feelings of fear, shame and guilt, survivors of abuse report that **the logistical challenge and financial cost of moving are major barriers to leaving.**

Shelter Movers Ottawa has completed over 1085 moves and is currently moving on average **19 families per month.**

## Be part of the solution

Shelter Movers is entirely dependent on the generosity of individuals and businesses to fund volunteer training, vehicle and storage rentals, and interpretation services.

Be part of this growing movement. Your support is appreciated and valued!

**Building a Stronger Constellation Together.**
